Democratic prints, showed that during the past three years there had been a direct reduction of the public debt of more than two hundred and fifty-nnie million dollars, which is a good deal of a reduction as it strikes us,—some \$89,-some \$89,-some \$89,-some \$80,-some \$80,-som a reduction as it strikes us,-some \$89,a reduction as it strikes us,—some \$89,600,000 more than the entire ordinary

by Mr. Gibson over \$400,000,000 was by Mr. Gibson over \$400,000,000 was paid for interest on the public debt. Of course the Democrats denounce any payment of money for such a purpose as that. Then again over \$600,000.000 were paid for back-pay of army and and his widow and his orphan children navy, bounties, pensions, military exshall be cared for." "That every man penditures re-imbursed to loyal States of the Union shall be protected." "That be refy man for sums advanced to prosecute the war, &c., &c. Of course the Democrawar, &c., &c. Of course the Democracy denounce the payment of money for all such purposes as these, too. The whole ordinary expenses of both army and navy for the last three years were but \$170,000,000. The immense sums paid in the military departments were the arrearages of the war which had necessarily accumulated. These arrearages constituted just as much a part of the public debt as the bonded debt which regularly appears in the monthly statement, so that it is no more than the truth to say that the struggle shall not be crushed beneath the struggle shall not be crushed beneath the party would return to power."

Neither of the speakers named Messrs. Seymour or Biair, not a cheer was given for candidate, speaker, or principle. And had they but heard the entusiastic cheering for Grant and Coltant no more than the truth to say that the actual reductions of the public obligations, including the payment of interest n the interest bearing debt, was at least

THE CAMPAIGN IN HANCOCK.

Editors Intelligencer:
The Democracy of Hancock held their grand mass meeting here to-day.
After issuing large posters, their audience was less than our Union one of Tuesday, and I should not have feared to stake the final result on a politaken upon the ground to-day, so numerous were the Republicans in attendance. We hope they will reciprocate and turn out as well to hear our side of the question.
Mr. Walker, Editor of the Wheeling Register, who is nominated as the competitor of our gallant Duval, made the

Register, who is nominated as the con-petitor of our gallant Duval, made the opening speech, and filled his hour in denouncing the radicals. The grand charge was that "carpet baggers and scalawags" in the West Va. Legislature had created a horde of office holders, and enacted the odious registry law.

Please refer him to D. Lamb now of the
Conservative party for explanation of
these questions, as I believe he had as much to do in the enactment of these laws as any member of the Legislature.

The great objection to the registry law was that it excluded honest men

from voting—their friends.
In Hancock the law excludes, I believe, not more than one or two men, but out along the border and in the interior it

along the border and in the interior it is hard on their party. Rebels who were in arms, who burned the houses of Union men, who stole their horses and done all that they could to destroy the Union, are excluded from the ballot to the great loss of the Democratic party. He gave the reconstruction laws of Congress an excoriation, and howled terribly over the freedmen's bureau. Made piteous appeals for their Southern brethren alias the rebels, but not one word of sympathy for the Southern ern brethren atias the rebels, but not one word of sympathy for the Southern white man who has stood by the Union, and whose very life depends upon the success of the Union party and the maintenance of these reconstruction

maintenance of these reconstruction laws.

Then followed the champion of the day, Mr. Robert Gibson, in an hour's speech which was expected to demoilsh the radical party. This is the gentleman who, four years ago in this county, proved to the satisfaction of the rank and file that greenbacks and bonds were worthless and that the war was a failure. Well, what do you suppose was the theme of his story to-day? The Debt. The Debt. You can never pay it; who can enumerate it? who can comprehend it? To illustrate and bring it down to the comprehension of even a Democrat, he loaded a wagon train with silver, and the train reached from 160 miles West of Chicago along the prairies and over the hills to West Virginia, and was 29 days in passing a given point. You will hear this silver tale I doubt not, as he threatens to indict the same of the same and was virginians a series. given point. You will hear this silver tale I doubt not, as he threatens to in-flict upon us West Virginians a series of discourses in the interest of his riend Walker. With all the adroitness of a lawyer

with all the abrothess of a lawyer versed in all the tricks by which a criminal may be shielded from the law, he spent his hour in covering up the real issues before us, as raised by Sey-mour and Biair and in their Democrate platform, and switching off his hear-ers upon the old question of the tariff, He stated that the Radicals had col-

ers upon the old question of the tariff, He stated that the Radicals had collected by the tariff during the last three years some 730 millions of dollars, thus supporting the New England Yankees and impoverishing the farmers of West Virginia, who were compelled to sell their wool for 41 cents that the manufacturers might grow rich. But he forgot to tell the farmers how much they would have got for their wool without a tariff or under a Democratic tariff.

Next he stated that the Radicals had ruined the country by exporting, within the same period, \$250,000,000 in gold.

Mr. Gloson may comprehend the Democratic understanding better than 1 do, but surely he cannot hope to impose such stuff upon the Republicans of this county. Does not every schoolboy know that we only export gold to pay the balance of trade, and that if we would keep our gold we must buy less abroad and manufacture more at home. And how is this to be brought about? Certainly by such a tariff as will give the market to our own labor in preference to the work men of other countries. He labored hard to show how the tariff oppressed the poor man, and no doubt convinced some of them that they were paying about \$35 tax upon the suit upon their backs, (your correspondent dresses about like his neighbors, and the senedule this warm weather won't foot up more than \$20, all told, so can't exactly see the argument.)

As he was talking to a Hancock au dience, let me illustrate this question by an example in our county familian to all his listeners, and which can be

ot up more than \$20, all told, so can'

The excursion could not make much headway just at present on this part of the Ohio unless it went in skiffs.

Gibson vs. The Truth.

Mr. R. M. Gibson, according to the Register's report, told the Democracy last Saturday night that within the past three years there had been colected in custom duties and internal revenue \$1,500,000,000 "all of which had been expended without reduction of the national debt."

Now a gentleman of Mr. Gibson's intended and the properties of the could have a permanent trade. The English brought over brick as ballast and drove us out of the market, and thus taking advantage of the planter put up the properties, and which can be repeated to your people upon every article manufacture largely in fire brick, and many of these manufactures, strange as it may appear, are democrats. So far as our home trade is concerned, we are independent of all farmy of reconcerned to your people upon every article manufacture largely in fire brick, and many of these manufactures argely in the being forced Advertiser.

The Chicag "If Democra will vote your farmy of reconcerned, we are independent of all Now a gentleman of Mr. Gibson's intelligence ought to have known this was untrue when he said it. If he did not know it he had better stay at home and not expose his ignorance on the stump.

We should make the effrontery to declare to the people of this intelligent city that in the last three porter did not labor to make so much contain the last three court of it. We were present when Mr. years all the receipts of the Govern-ment had been disbursed without any Walker was speaking. Naturally, we suppose the crowd was not so large A CURIOUS REPORT.—The "Veteran Observer" writes from Cincinnati to the Times a curious report that Mr. Seymour, "convinced of the hopelessness of his election, and anxious to carry out his original pledge to These differences approach to the crowd was not so large then as before. At that time six or seven hundred would be, in our judgment, a very large estimate. Certainly the Register will hardly admit that four-fifths of the crowd left when its

The Commissioner of Internal Rev enue has issued a pamphlet of instructions relating to the packing, branding and stamping of tobacco, snuff and cigars, and the payment of tax thereon under the new law. We publish the following extract for the benefit of manufacturers:

"At the end of sixty days from July 20, 1868, or upon such day thereafter, not later than the first day of December next, as the Secretary of the Tressury shall determine, all taxes on tobacco, snuff and cigars are to be paid by stamps, which are to be affixed to every box, bag, vessel, wrapper or envelope of any kind containing the same of any kind containing the same.

Until special revenue stamps for payment of the tax on tobacco, snuff payment of the law of closests, said and cigars, are prepared, and prior to the time fixed for their use, manufacturers of tobacco, snuff and cigars, will be required to have all their products properly inspected, branded or marked by a tobacco inspector before the same are used or removed for consumption or sale, in the same manner as pre-scribed by former rules and regula-tions. And all such tobacco, snuff and cigars, when removed from the place of manufacture, will become liable to tax according to the new rates, and must be returned upon the first return day after the removal, and the tax assessed and paid as provided in the old law."

IF WE understand some of the Democratic organs, they claim that the Democratic party, while opposed to allowing the colored men to vote, are willing to protect them in all their civil rights will protect their freedom, and aid their education. Very well: but ac-tions speak louder than words. The Republican party has given the colored man his freedom, his civil rights, and s chance to acquire education; and the Democratic party opposed each of these measures by every means in its power. It even fought against them in the battle field, at the South, and bitterly denounced them upon every stump in the North. If the Democratic party is now ready to deal justly by the black man, in all except the ballot, then the Democratic party has had this new sense of justice pricked into it by the bayonets of Republican armies. In short it has been whipped into this much decency. The Democratic party has had forty years time to do justice to the black; and, in all that time, it never gave to one single colored man his freedom, his civil rights, or an education. It now has control in Maryland and Kentucky; and, in those States, it does not give the colored people thet civil rights, an education, or their free dom, any further than the laws of the United States, passed by a Republican Congress, compel it to do so. A little talk and a little more action on this point would become the Democracy better.

A Piece of History. We have been informed of an inci-lent which occurred at the New York We have been informed of an incident which occurred at the New York Convention, which is full of significance, and shows that from the first it was determined to force; upon the party the adoption of Frank Blair's "wiping out" policy. We get our facts from an entirely reliable source and their perfect authenticity may be depended upon. After Pendleton's defeat became assured, his friends in the Convention took counsel as to whom they should cast their votes for as a second choice. It was determined that all Western names should be ruled out, in order to preserve Pendleton's chances in 1872. Various names were suggested, and among the rest that of Reverdy Johnson. It was conceded that he would make a strong candidate—probably the strongest that could be put up. It was urged however, as a fatal objection to him—not only by the Pendletonians, but by the rebel delegates—that the had voted for the reconstruction bills in Congress, and that the party was strenged to wred all that had been done. in Congress, and that the party upledged to undo all that had been de under those laws. Reverdy Johnson's name was dropped for that rasson slone. No question was raised but that was to be the leading issue in the canvass. absequent events have proven that it is the real issue, and that all others are subordinated to it. Southern leaders insist that it shall be openly avowed, being forced to obey.—Buffalo Com. Advertiser.

THE Chicago Times most truly says; "If Democrats vote as they fought, they will vote for Seymour, against the infamy of reconstruction, and against Grant." Never spoke the Times more truly or more honestly!

YEARS ago, before the rebellion, al the argument and intellectual antag onism of the pro-slavery South and the free North was summed up in the word "mudsill." To-day it is concen-trated in "carpet-bagger."

In the mouth in the morning is one of the symptoms of a billious condition or disordered state of the liver, and should not, for a single day, be neglected, as it is but the premonitory symptom of a train of evils and the very seeds of disease. Procure at once Roback's Blood Pills, administer them seconding to the directions accompanying each box, and the difficulty and danger of disease will at once be removed.
